

MOHD WALID ANSARI

Data Analyst | SQL | Python | Power BI

+91-80046 78089 | mohdwalid.data.analyst@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

Data Analyst with 1+ years of experience backed by a strong foundation in mathematics and hands-on experience in full-lifecycle data handling. Skilled at taking unstandardized, fragmented data sheets and using Python and SQL to clean, organize, and store them efficiently. Proven ability to automate manual reporting processes, reduce turnaround times, and build user-friendly Excel models for performance tracking.

Skills

Languages & Databases: SQL (Joins, Window Functions), Python (Pandas, NumPy)
Tools & Software: Power BI (DAX, Dashboarding), Advanced Excel, Tableau, Google Analytics, Google Sheets
Data Analysis: EDA, Statistical Analysis, Cohort Analysis, Funnel Analysis, Trend Analysis, A/B Testing
Data Operations: Data Preprocessing, Data Visualization, Data Modeling, Data Cleaning, KPI Tracking

Experience

MIS Analyst

Dec 2025 – Present

Meraj Communications Pvt. Ltd.

Tools Used: SQL, Excel, Python

- Boosted operational efficiency by 15% by creating advanced Excel data models to optimize resource allocation.
- Reduced weekly reporting turnaround by 35% by developing Python ETL scripts to aggregate fragmented data streams.
- Improved database query performance by 25% by optimizing complex SQL joins and indexing structures.
- Reduced data pipeline exceptions to under 0.3% by programming automated Python data-cleansing logic.

Data Analyst Intern

Jun 2025 – Dec 2025

Access Million (Remote)

Tools Used: SQL, Python, Power BI

- Identified a 23% revenue drop in Q3 by building a sales performance dashboard in Power BI
- Increased targeted campaign engagement by 22% through customer segmentation analysis using Python
- Improved lead-to-customer conversion by 15% through sales funnel performance analysis
- Optimized pricing and revenue strategies to improve profit margins by 10%

Projects

E-Commerce Analysis | SQL (BigQuery), Python, Power BI | LINK

Mar 2026 – Apr 2026

- Analyzed 100K+ ecommerce orders using Python to identify credit cards as the top revenue-driving payment method
- Identified 96% one-time buyers through cohort analysis, informing retention-focused marketing strategies
- Identified 12,040 high-risk customers through churn analysis and projected a 15% churn reduction using targeted retention strategies

Sales Analysis & Forecasting | Power BI | LINK

Sep 2025

- Analyzed 1.57M sales across 3,003 orders using Power BI to uncover customer and regional trends
- Developed a 15-day sales forecast using time-series analysis to support inventory planning decisions

Airlines Customer Segmentation | Python, Pandas | LINK

Jan 2026

- Segmented airline customers into 4 distinct groups to support targeted marketing and loyalty strategies
- Evaluated 10+ customer travel and rewards metrics to identify high-value frequent flyers for personalized offers

Education

Master of Science (M.Sc.) in Mathematics

2025

Deen Dayal Upadhyaya Gorakhpur University, Gorakhpur

Mathematical Modeling, Linear Algebra

Bachelor of Science (B.Sc.) in Mathematics & Physics

2023

DDU Gorakhpur University, Gorakhpur

Probability, Statistics, Optimization

Certifications

Data Analytics Certificate – TopMentor (2025)
SQL & Python Certificate – TopMentor (2025)
Power BI & Excel Certificate – TopMentor (2025)
